ONLINE: Classroom Management for Positive Behaviors

"I enjoyed this class! It really gave me additional insight into behavioral management."

– Alan J.

Students from all backgrounds, temperaments, and abilities should have access to a classroom ambience that is conducive to their learning. Positive Behavior Management helps educators transform challenging behavior, systemically and individually, to create such an environment.

Learn evidence-based Positive Behavior Intervention Solutions (PBIS) practices to identify and eliminate triggers in the classroom, encourage positive behaviors, and give students individualized care and support.

This proactive PBIS approach, with three tiers of interventions, can strengthen students' relationships, improve their communication skill, and circumvent conflict.
