

## **ONLINE:** Flipping Classrooms

*"I have a better understanding of how and why the flipped classroom should be used."*

– Cynthia A.

"Flipping" the classroom liberates classroom instruction from traditional patterns. The goal is to move students beyond becoming 'proficient' in a subject to 'mastering' its intricacies. Explore making students' learning needs the driving force behind classroom instruction. Identify effective tools and strategies, such as video, digital simulations, and computer games to personalize lessons.

This approach empowers student ownership over their learning and promotes the classroom as a collaborative educational environment.
